

Main Activity: This is the app home page that will display when the app is launched. Hit enter to navigate to the vacation list page.

Vacation List: This is the page where you can find all saved vacations. You can also add a vacation using the purple button at the bottom of the screen. The app will navigate to the vacation and excursion details page.

The screenshot shows a mobile application interface with a purple header bar. The status bar at the top displays '85°', signal strength, Wi-Fi, and the time '10:23'. The app's title bar is 'Vacation Details and Excursi...' with a back arrow on the left and a menu icon on the right. The main content area is dark gray and contains four input fields: 'Vacation Name:', 'Lodging:', 'Start Date:', and 'End Date:'. Below these fields is a section titled 'Excursions'. At the bottom, there is a text label 'Add Excursion' and a purple button with a white plus sign. The Android navigation bar is visible at the very bottom.

Vacation Details and Excursi...

Please save vacation before adding excursions

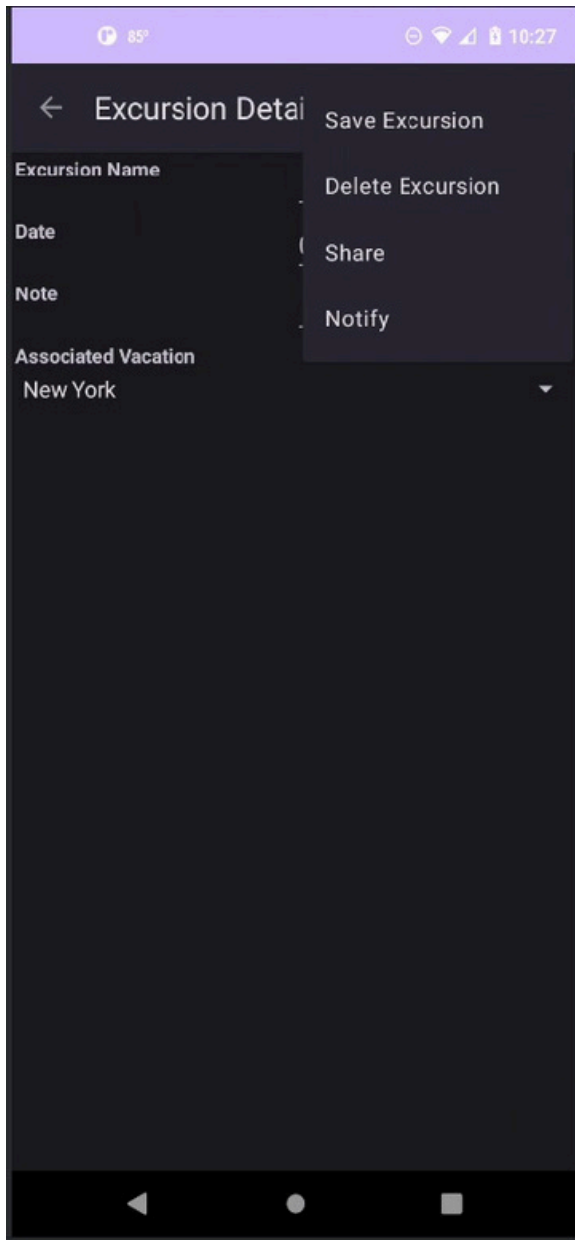

Add Excursion +

If you attempt to save an excursion before saving the vacation, you will get an error.

The screenshot shows a mobile application interface with a dark theme. At the top, a purple status bar displays '85°', signal icons, and the time '10:26'. Below this is a dark header bar with a back arrow, the title 'Excursion Details', and a menu icon. The main content area is a form with the following fields: 'Excursion Name' (empty), 'Date' (filled with '06/09/24'), 'Note' (empty), and 'Associated Vacation' (a dropdown menu showing 'New York'). The bottom of the screen features a dark navigation bar with three icons: a back arrow, a circle, and a square.

Field	Value
Excursion Name	
Date	06/09/24
Note	
Associated Vacation	New York

After a vacation has been saved.
You can click the add excursion
button and navigate to the
excursion details page.

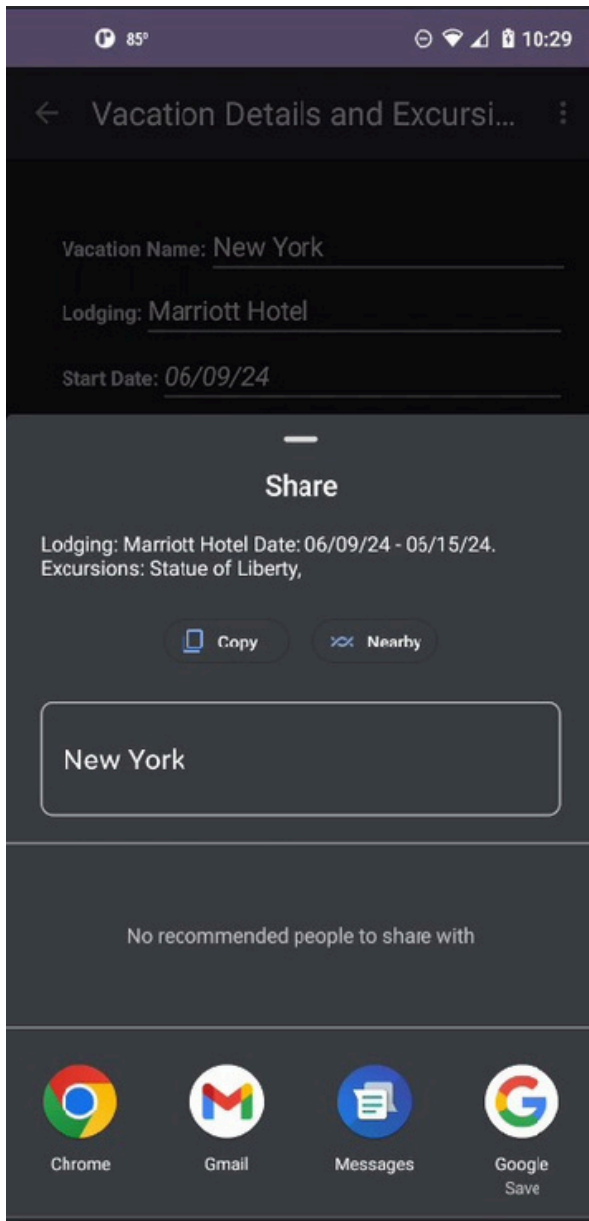

On the excursion details screen you will enter the excursion information and then save using the 3 dot menu button. Again an excursion can be deleted from here as well.

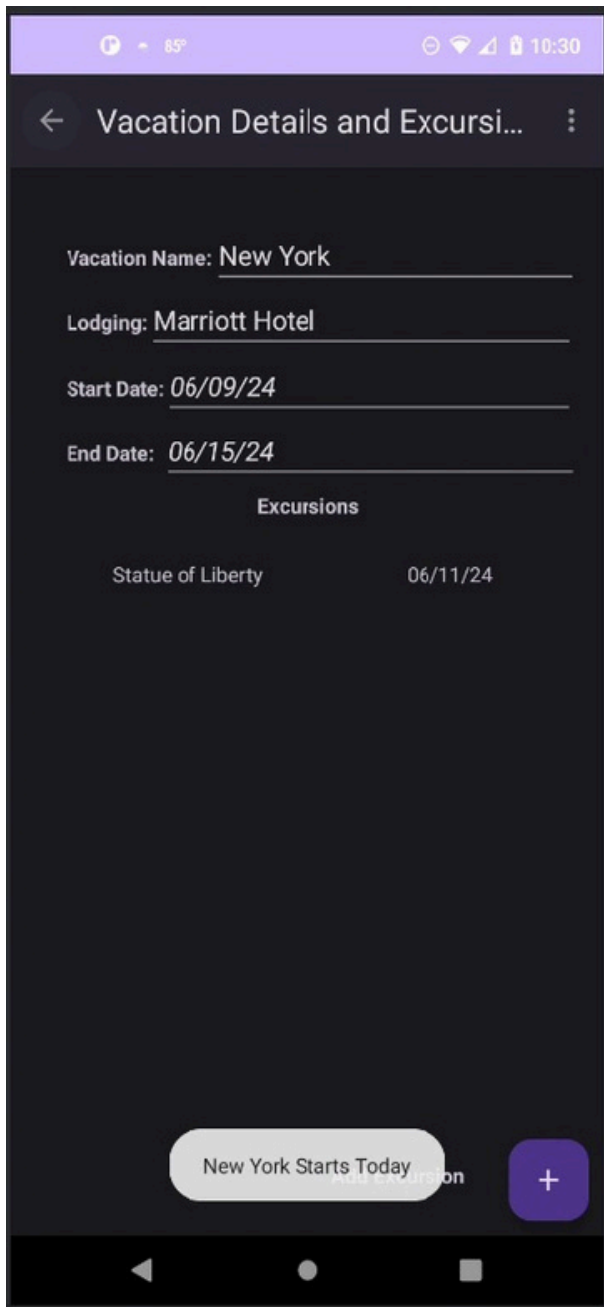

The screenshot shows a mobile application interface with a dark theme. At the top, a status bar displays '85°', signal strength, and the time '10:28'. Below this is a header bar with a back arrow, the text 'Vacation Details and Excursi...', and a menu icon. The main content area contains four input fields: 'Vacation Name: New York', 'Lodging: Marriott Hotel', 'Start Date: 06/09/24', and 'End Date: 06/15/24'. Below these fields is a section titled 'Excursions'. It contains a single entry with the text 'Statue of Liberty' and the date '06/11/24'. At the bottom right of the screen is a blue button with a white plus sign and the text 'Add Excursion'. The bottom of the screen shows the standard Android navigation bar with back, home, and recent apps icons.

After the vacation and excursion information has been entered and saved, the vacation details page will populate with all information. To edit the vacation data, change what's necessary and then click save again. To edit the excursion data, click on the excursion title and the excursion details page will be on screen. Update and save.

NOTE: You can delete the previously saved excursion with the incorrect data by clicking on it and choosing delete.

To share saved vacation information, click the share button in the 3 dot menu and you will have the option to share all details via email, text, etc. The same can be done with an excursion.

To create an alert for the vacation starting date or ending date, click the alert button on the 3 dot menu. The same can be done for the excursion date, within the excursion details screen.
